ABOUT ME

I am currently pursuing a Bachelor of Engineering in Computer Science and Engineering with a specialization in Artificial Intelligence and Machine Learning. As a final semester student, I have developed a strong foundation in programming, data analysis, and machine learning algorithms. My hands-on experience with various projects, internships, and coursework has honed my skills in AI, ML, and software development. I am passionate about leveraging technology to solve real-world problems and am eager to contribute my expertise to innovative and dynamic teams. I have a proven track record of working effectively in collaborative environments and possess strong problem-solving abilities, attention to detail, and a continuous learning mindset.
